SKILLS

Ruby	JavaScript	MySQL	TDD/RSpec	Git
Rails	CoffeeScript	PostgreSQL	HTML/CSS	Ember

EXPERIENCE

MeYouHealth

Rails Engineer   MARCH 2014 - CURRENT

- Building key features for Daily Challenge, a product designed to encourage users to take one Small Action each day to improve their well-being. DC currently supports over 330,000 actives users on web, mobile web, and native mobile devices.
- Full-stack web development including: Ruby on Rails, MySQL, PostgreSQL, TDD and Agile development, Haml, Javascript, CoffeeScript, and CSS.
- Working closely with the DevOps team to support continuous integration and infrastructure improvements.

Fundraise.com, Inc.

Rails Engineer   NOVEMBER 2013 - MARCH 2014

- Full-stack web development using Ruby on Rails, Git, MongoDB, MySQL, Haml, HTML, CSS, and Javascript.
- Helped drive the team's initiative to implement best practices.

Launch Academy

Web Development - Apprentice   JULY 2013 - OCTOBER 2013

- Launch Academy is a 10 week, intensive web development program. I practiced web development with Ruby on Rails by building software under the guidance of established software engineers.
- The curriculum included: Ruby, Rails, HTML, CSS, Javascript, Git, APIs, TDD, MySQL, Domain Modeling, and Agile Software practices.

EDUCATION

Bachelor of Science in Business Administration and Entrepreneurship

University of South Carolina   JANUARY 2006 - DECEMBER 2009

COMMUNITY

Girl Develop It Leadership Board, Community Chair

Girl Develop It is a non-profit organization that empowers women to learn how to code and develop software by providing hands-on instruction in an encouraging community. For the Boston branch, I organize and TA classes. As the Community Chair, I help manage the organization's outreach events.
